For the Republican,

A Cold Blonded Murder.

We are sorry to say, that A. J. Lowther was shot by some cowardly enemy who had placed himself in ambush for the purpose. After the proposition for union by the 9th of August, the Executive Committee is directed to issue to the People of Ohio a call for a Convention, to be chosen without reference to party, topon the simple basis of the maintenance of the government and the soppression of the rebellion against it.

Resolved, That the Secretary be requested to furnish copies of the foregoing preamble and resolutions to the papers of this city, and that the Press of all parties in the State be lievited to publish the same.

The Cleveland Plaintenance of the source of the commandes and conveyed back to came B. It is not the papers of this city, and that the publish the same.

The Cleveland Plaindealer thus endorses The Cleveland Plaindeder thus endorses the action of the Republican State Central Com-mittee. The Republican press of the State pretty generally fall in with the proposition to let the people, instead of the politicians, have the selection of our State officers the coming fall. A number of the Loco press refuse to come into the movement, but it matters little whether they favor it or not, or whether the the State Central Committee accept the terms profferred them, or not, for in case of their refusal they are bound to go up the the spout further than ever party went before. Hear what the Plaindeale

says:

Thus they dismiss their political organization and fall back into the ranks of the people, and leave the other political organization to follow suit or fight the people. As the Democratic Convention will meet on the 7th of August, we confidently expect that the proposition will be accepted and the great work of the Nation's salvation be allowed to override and supercede all lecal wrangling and bickerings. The onus of giving to the war a united front in Ohio, is now on the Democracy, and let us meet the proposition in the spirit with which it was made, feeling and knowing that the great State of Ohio is for the preservation of this glorious country intact, and will so decide at the polls, if untrammeled, by a majority that will place the balance of the vote in the list of "scatterring."

We know that old stagers, old political backs, of all parties, will struggle hard against coming down to a level with the masses in the management of making nominations. They will yield up the scirce as they would yield up life itself. "Old Crisis" the Governorships and a Post Office on his back, will throw up his hands in holy horror, and Old "Inalinable Rights" will leave Canada in a rage, and re-organize his old squad at Oberlin, Ashtabula, Xenia and Zanesville.

They were about 9000 strong at this point, with about two miles of entrenchments around the hill, besides other strong fortifications for the artillery. We received orders to march from Phillippi to this place, 4,300 of us, at midnight on the night of the 6th inst, which is about 14 miles. We got within one mile of their camp at 8 o'clock next morning, without much difficulty except a little skirmishing with their picket guards. Here we were all drawn up in battle array, with no other expectation but to go immediately into an active engagement with the enemy. A cooler set of boys I suppose you never saw. On Thursday night the rebel army at this place got wind that Gen. Hill's force was advancing upon them from the other side, when they all packed up and fled, leaving their sick and wounded in the camp for us to take care of, telling them that they would have to leave them, and that they expected the abolitionists would kill them as soon as they found them. Said one poor fellow with whom I was talking, "I had made up my mind to die, when you fellows came over into our camp. But I was agreeably mistaken. I am far better used, than I was in my own army." Destructive Fire.—The extensive Flouring Mill of Mr. Samur. Seamour, 1/2 mile South of Fredericksburg was burned to the ground on Saturday last. The fire is supposed to have originated in the roof from a spark which came from the chimney. The loss is about \$10,000, no insurance, the policy having expired a few days before the fire. There was in the mill at the time a large amount of wheat and flour, but a small portion of which was saved.

Death of David Wart.—Whilst David Wart with three or four others were returning from Oxford on Saturday night last, he was thrown from his horse and instantly killed. The hou was about midnight and the report is that they were trying the speed of their horses, when Wart's horse fell, throwing his rider on his head, breaking his neck, one arm and back bone, and, brusing his face so much that he could scarcely be recognized.

The defeat of one army will only stimulate us to form more new ones. The discovery of defects in its organization will urge us to guard against and remedy them. It would be folly to expect that an unbroken chain of be folly to expect that an unbroken chain of be folly to expect that an unbroken chain of victories will await us if we neglect the means and precautions necessary to achieve them, but we have only to avail ourselves of the resources at our command to make the Union cause once more triumphant.

Headquarters,

Army of Occupation, Western Virginia, ?

Beverly, Virginia July 16th 1861.

Soldiers of the Army of the West!

I am more than satisfied with you.

You have annihilated two armies, commanded by educated and experenced soldiers, entenched in mountain fastness fortified at their leisure. You have taken five guns, twelve colors, fifteen hundred stand of arms, one thousand prisoners, including more than forty officers—one of the two commanders of the rebels is a paisoner, and the other lost his life on the field of battle. You have killed more than two hundred and fifty of the enemy, who has lost all his baggage and camp equipage. All thes has of battle. You have killed more than two hundred and fifty of the enemy, who has lost all his baggage and camp equipage. All this has been accomplished with the loss of twenty brave men killed, and sixty wounded on your part.

You have proved that Union men, fighthing for the preservation of our Government, are more than a match for our misguided and erring brethren; more than this you have shown mercy to the vanquished. You have made long and arduous marches, ofeth with insefficient food, frequently exposed to the inclemency of the weather. I have not hesitated to demand this of you, feeling that I could rely on your endurance, patriotism, and courage.

In the future I may still have greater demands to make upon you, still greater sacrifices for you to cffer; it shall be my care to provide for you to the extent of my ability; but I know now that by your valor and endurance, you will ac-

OATP. BALL SILLED.

We are informed that Captain M. D. Ball of the Fairfax Cavalry, who was confined at the navy yard some time since, and released on taking the oath of allegiance, was killed by a party of Fire Zouaves when they marched upon Bull'a Run. The Zouaves say they fell in with him below the Court House as they were scouting, and in attempting to disarm him, he stabbed one of their party, whereupon they immediately killed him. We have not learned that he again joined the Confederates, but the fact that several of his company did so renders it not improbable that he may have gone back to his companions.

Another Army Paper.

We have received a copy of "The Ohio Tweaty-Second," a journal published by the Twenty-Second Ohio Regiment, at Clarksburg, Va. They took possession of a vacated "Secesh" printing office, and have issued a very neat little paper. Fitch and Harman are announced as printers and publishers, and Capt. Hulich and Lieut Smith as editors in chief. We extract it freely, as its articles are an indication of the spirit of our troops.

NORTHERN TRAITORS.

In an article on this subject, the editors wisely say:

In an article on this subject, the editors wiscly say:

The motives, desires and opinions of the Northera people have been misconceived by our Southern fellow citizens, and this misconception has almost entirely been brought about by the will and malicious slanders issued by a few party editors at the North against the people of their section. These editors to save themselves from the indignation of an outraged public, appeared at first to change their sentiments, and advocated for a time the cause of their country. But they are again taking the course of the Tories of the Revolution, and by their misrepresentations, are attempting to play into the hands of the traitors. They say, yield all, give up Constitution, Law, Government, Honor, everything for the sake of peace, to bring to an end this fratricidal war. Fratricidal war, indeed! If these editors still claim as brothers the traitors with whom we war, 'tis time their own cases were looked to, and as soldiers fighting in defence of America and her institutions and laws, we ask our friends at home to see to it that the traitors there be taken care of, or it may become necessary that these "mi-

REBUKE OF A NORTHERN EDITOR.

We had occasion, some time ago, to rebuke the treason of the Clermont Sun. It seems that the traitorous editor of that paper had the impudence to send copies of their paper to Company E, of the 22d regiment, who came from that neighborhood. The gallant fellows naturally became indignant, and held a meeting, the proceedings of which are published in "The Twenty - Second." Among the resolutions adopted were the following:

Feeble Health of the Pope.

The latest European advices state that for the month previous, the health of Pope Pius IX, has been feeble and failing, and the cardinals are already being canvassed as to his successor. It is also stated that Cardinal Vanicilli, the Archbishop of Terrara, is likely to be the successor of Pio Nino. He is said to be regarded

as beyond recovery, and an early announcement of his death is anticipated.

The death of the Pope, at this time, possess see an unusual interest. The Union of Italy has made great inroads upon his possessions and and temporal power. To Nino has resisted to the best of his ability, but after a long struggle find, himself. the best of his ability, but after a superfinds himself a king without a scepter, a munical without subjects. While France hails Victor Emmanuel as King of Italy, the government of the Caroina's recognize him only as Victor Emmanuel as King of Italy, the government of the Caroina's recognize him only as King of Sardina. Italian affairs have narrowed down to a contest between United Italy and the Pontifical Government, as to the possession of Rome. Italy wants Rome for its capital and the Pope refuses to surrender. Napoleon protects the Pope. It is not unlikely that, immediately on the decease of Pio Nino, and before a reorganization of the Pope's Government can be effected that Rome may be possessed by the King of Italy, and the creation of a new Pope forced to take place elsewhere.

A staff officer in Gen. McDowell's command, an eye witness to what he relates, says:

Colonel James Cameron fell pierced through the left breast by a musket ball. He had discharged his revolver twice and was in the act of firing the third time when the deadly mesor hring the third time when the deadly mes-senger stopped his career. He was a brave man, a thorough soldier, and the idol of the regiment. The Sixty-ninth regiment, Colonel Cocoran, were so eager for the fray that they divested themselves of all superfluous wearing apparel, and barefooted and with bare arms went into battle.

They charged upon a battery and were re-pulsed. They tried it a second time, and met with the same fate. The third endeavor, on their part, marked the undannted determination of the regiment as they pressed forward with yells and shouts of defiance, planted the Stars and Stripes on the Batterry, which they held for apwards of a half an hour. But, worn out, hungry and thirsty, and overpowered by five, the gallant Sixty-ninth were forced to abandon the battery, taking good care, however, to retain

The rebels have to-day been practicing from a battery at Willoughby Point, some 5 miles below Sewall's Point, and just be low the Rip Raps.

Heavy firing is now going on at Pig Point.

KANSAS CITY, July 27. Col. Weir, commanding U. S. Troops, arrived here this evening. From him we have accounts of a skirmish with 300 counted rebels at Hannibal, Mo., on the night of the 25th inst. The rebels were discovered posted on the hill surrounding the town and were attacked by Capt Wil liams with 50 men, killing 6 of the rebels and losing 2 of his own force.

After the third round the enemy fled precipitately, some of them throwing away their guns. On the following morning the Federal troops, under Major Van Horn, took possession of the town and hoisted the stars and stripes over their Court House. Having received orders to with-draw they returned to this place, where a considerable portion of them will be de-tailed as an escort to government trains for the Southwest. Several stores were said to have been ransacked by U. S. forces, but Col. Weir pronounces the state-ment without foundation. It is stated the enemy in the country surrounding Harris-onville number from 600 to 1,000.

WASHINGTON, July 23. Washington, July 23.

The N. Y. Herald's dispatch says the Potomac River below Washington cannot be crossed by the rebels, as Secretary Wells has ordered a powerful naval force to guard the river. The river above Washington to Harper's Ferry is equally secured by the Union forces that line the banks.

The story that Gen. Lee intends to cross

the Potomac between this point and Harper's Ferry, cannot be true, as Lee has no desire to be sandwiched between McClellan and Banks.

There will be an entire change in the whole organization of the army by placing each brigade and division upon a more satisfactory basis.

collision between our pickets and the rebels in the vicinity of the Chain Bridge .-It was believed that Beauregard was about to attempt the execution of his menac to breakfast in Washington this morning but upon our reconnoitering parties return from Fairfax, all apprehension of an immediate attack was removed.

A reconnoisance was made last night by a large force of cavalry and infantry in the direction of Fairfax. A portion of the party proceeded as far as the Court House and found no signs of the enemy, or in the route, except the mounted picket quard, which retired on their approach .-The withdrawal of the rebels from the vicinity in front of our lines of fortifications adds strength to the rumor that their main body is proceeding towards Leesburg and Edward's Ferry. It may be possible, however, that they have, by the aid of the railroad from Manassas, despatched an overwhelming force to attack the Union army of the Shenandoah at Harper's Ferry, and drive it back across the Potomac.

FORSYTHE, Taney Co., Mo., July 28. Gen. Sweeny's command, which left Springfield last Saturday, arrived here today and dispersed a band of a hundred and fifty rebels stationed here, and took possession of the town. Five of the reb els were killed and several wounded .-Three of our men were slightly wounded

but none killed. The first and second stories of the Court House here were filled with blankets, provisions, camp equipage, &c., which together with two tons of lead found in a well and other articles secreted in different parts of the town, in all valued at between eighteen and twenty thousand dollars, fell into our hands. The place is not yet occupied by the ebels.

A resolution will be obered to the House to morrow, requesting the President to propose the exchange of Messrs. Burnett and Vallandigham for the Hon. Alfred Ely, now a prisoner at manassas, and it may be voted down on the ground of the improbability that the rebels will give up one of our men in return for two whom they have

WASHINGTON, July 28. Wm. Burch, the owner of the carriage which Harris and McGraw went to recover the body of Col. Camerou, returned late this evening. He was compelled before he returned, to take an oath not to reveal anyhing relative to the force or defense of the rebels, or what he saw there. He is consequently chary in his communication.— He states that the party were allowed to pass up to Manassas, whereupon presenting themselves to Gen. Beauregard they were arrested and placed in confinement for several days. In the meantime Messrs Harris and McGraw were sent to Richmond as orisoners. Mr. Burch finally, through the intervention of personal acquaintances at the Junction, was examined and dismissed,

and allowed to return. He learned Mr. Harris would probab through the influence of prominent personal friends obtain his release, but there is no probability of the immediate release, of Magraw, who is a Pennsylvanian. were believed here to be very deeply imbued with rebel sympathy. Burch was not permitted to examine the battle-field. It is supposed Col. Cameron's body lies un buried on the field, or has been huddled into a trench with the bodies that have been buvied. Mr. B. says the hospitals are crowded with the wounded. He reports that all wounded are well cared for; that the rebel chiefs had determined not to agree to and exchange of prisoners. Burch's carringe driver states that he heard that Cols. Vilcox and Corcoran have both been sent to Richmond.

He also states that when he left the Junction early this morning, Gen. Beauregard was making preparations to re-capture Alexandria to morrow or next day. In confirmation of this, it is reported that Gen. B. has sent information to this effect to a prominent secessionist residing in Alexan-

HORSE CAVALRY .- A correspondent of the New York Times says: A spectator of the scene tells me that

the Zonaves literally decimated the Black Horse Cavalry, the celebrated rebel troop. About the middle of the battle the Zouaves fired by platoons upon the rebel infantry stationed in the woods. After they had fired they discovered a troop of horse coming down on their rear. They carried the American flag, which deceived Col. Heintzelman, and made him believe they were United States Cavalry, and he so told the Zouaves. As they came nearer, their true character was discovered, but too late for all the Zouaves to relead .-The regiment faced and received the cav-A soldier of the 69th Regiment arrived alry as they came down, with leveled bay aves went in with their knives and pistols
